

August 31, 2010

Dear Hockey Parents,

As I have come to find out there many parents who like to help out especially in the house leagues. I think this is great. However, stricter rules are being set and if you wish to volunteer your time on the ice this year you will need to be at least a level 1 USA Hockey certified coach.

To get this certification you need to take a certification class. There are a few certification classes coming up right around the corner that I urge most of you to take if not for the certification but for the experience and education.

**Level 1 Certification Coaching Clinics...**

@ Shelton 9/18

And

@ Brewster 9/18

Please call the arenas for times and to sign up.

You will find these classes to be fun and full of information you can use for years to come.

Good Luck,

**Gene Katz, Level 4 USA Hockey Certified Coach**

**Danbury Hockey Director**
